

Tips to help your child learn Spanish

1. When in the supermarket look for Spanish foods such as Chorizo (CHO-REE-THO) and ask your child to read the names in Spanish.
2. Get them to practice their Spanish numbers by counting up and down stairs, counting out sweeties, counting pennies etc.
3. Ask them to sing Spanish songs that we've learnt and to teach you or brothers and sisters the words.
4. When out and about play the car colour game and get them to tell you the colour of cars that go by in Spanish.
5. Use apps and websites together to learn new words and phrases. Here are some you might like to take a look at...
